PROFILE

Communications Specialist with a degree in Computer Science, leveraging digital skills to drive high-impact social projects.

Experienced in web development, digital communications, and community engagement across Mali and Morocco.

Adaptable, curious, and deeply committed to innovative and inclusive initiatives in Africa.

Proficient in content creation, social media management, data collection, and analytics, with a proven ability to thrive in multicultural and collaborative environments.

EDUCATION

École Polytechnique d'Agadir – Universiapolis, Maroc

- Software Engineering Degree – 2020 to 2023
- Preparatory Program in Software Engineering – 2018 to 2020

Lycée L'Entente – Bamako, Mali

- Baccalaureate – 2018

École Privée Solidarité – Bamako, Mali

- Diploma of Fundamental Studies (DEF) – 2015

PROFESSIONAL EXPERIENCE

Communication and Database Manager – Sahel Solidaire NGO

Bamako, Mali | January – Present

- **Communication Strategy:** Leading the organization's digital identity and designing advocacy campaigns for humanitarian actions.
- **Database Oversight:** Managing and securing project data to produce high-level Monitoring and Evaluation (M&E) reports.
- **Public Relations:** Coordinating with technical partners and media outlets to ensure institutional visibility.
- **Web & IT Management:** Overseeing the development and maintenance of the organization's digital platforms.

Full Stack Developer Internship: Drupal – FlutterFlow – IsmaCorp

Bamako, Mali | October – November 2024

- Developed interfaces using FlutterFlow (mobile application).
- Integrated web solutions using Drupal (website).

Internship – Operations & Maintenance Department – Africa Green Tec

Bamako, Mali | August – September 2024

- Monitored and tracked photovoltaic installations in real-time using SteamaCo.
- Analyzed production, consumption, and system performance data to identify anomalies.
- Managed client accounts: monitored credits, activated/deactivated meters, and provided technical support.
- Tracked alerts and incidents to plan and coordinate maintenance interventions.

Final Year Internship – 4Tech

Agadir, Morocco | March – August 2023

- Studied and understood the architecture of Eveho's SaaS for automotive e-commerce using Symfony + CMS, Nuxt JS, Tailwind, and APIs.
- Created comprehensive documentation for the SaaS using Notion.
- Contributed to the development of BARACAR, a car sales website.
- Developed features for the Ultimate Cup website.

Engineering Study Internship – CodingArt

Agadir, Morocco | July – September 2022

- Created UI/UX mockups.
- Built the frontend of the CodingArt website using React.js & Tailwind CSS.

Intern Technician – Cosit

Bamako, Mali | August – September 2021

- Developed a commercial management website.
- Gained insights into digital marketing and QR code creation.

COMMUNITY INVOLVEMENT | VOLUNTEERING | ACADEMIC PROJECTS

Member – Enactus Universiapolis

Agadir, Morocco | 2022 – 2023

- Participated in the development of social entrepreneurship projects during my engineering degree.
- Collaborated within a multidisciplinary team to address sustainable development challenges.

Feeera Salon Project (2021-2022): Developed a business model, created a business plan, and designed a prototype for EasyRental, a web platform for renting motorized vehicles and driver services.

Communications Manager – ASEM (Association of Malian Students and Interns)

Agadir, Morocco | 2020 – 2021

- Managed internal and external communications for the association representing the Malian student community in Agadir.
- Organized cultural and integration events, strengthening ties within the diaspora.
